THE U.S. AIRSTRIKE ON SYRIA, EGYPT'S CHURCH BOMBINGS AND THE ZIONIST PLAN FOR "GREATER (KENITE OCCUPIED) ISRAEL"

THIS MAP shows the borders of "Greater (Kenite Occupied) Israel" as stated by Theodore Herzl, the man credited with founding Zionism (even though it was the Rothschild Cartel who invented Zionism along with Nazism, Fascism and Communism all in 1830 as part of their master plan for a "New World Order" according to an interview in 2006 with top Illuminati researcher Eustace Mullins, author of *The World Order* as well as *Secrets Of The Federal Reserve*.) So it is far from a coincidence that the Trump Administration (including Rothschild Inc. minion Wilbur Ross) decided to bomb Syria on the 100th anniversary of the entry of the United States into World War I which was followed shortly thereafter by the Egypt Church Bombings in Tanta and Alexandria which, as you can see from the map, are located on the border of "Greater (Kenite Occupied) Israel" as well.

Interestingly enough, Isaiah Chapter 17 refers to the destruction of Damascus, Isaiah Chapter 18 refers to the United States and Isaiah Chapter 19 refers to Egypt and goes on to describe a "cruel lord" and a "fierce king" that "shall rule over them." This is the same "king of fierce countenance" written of in Daniel 8:23, Satan in his role of Antichrist when he appears in Jerusalem to rule over not just Egypt, but the whole world as we know from Revelation 13. That is where all this is headed. (Obviously we are still in the "Wars And Rumors Of Wars" phase of this but before it is all over with, Satan and his angels will be cast from Heaven into the earth at the Woe of the Fifth Trumpet which is when the One World Political System will emerge. After the Deadly Wound to this Political Beast, Satan shall appear as Antichrist at the Woe of the Sixth Trumpet. The True Christ, Jesus, will not return until the Woe of the Seventh Trumpet.)

PUTIN AND TILLERSON HOLD "VERY FRANK" TALKS IN MOSCOW AMID SYRIA TENSIONS

USA TODAY, 4-12-17

(EXCERPT) Secretary of State Rex Tillerson and Russian President Vladimir Putin held more than two hours of "very frank" talks Wednesday in the Kremlin amid tensions over a U.S. airstrike against a Syria air base blamed for last week's deadly chemical attack.

In remarks to reporters after the meeting, Tillerson said he told the Russian leader that current relations between the two countries are at a "low point."

"There is a low level of trust between our two countries," Tillerson said in a joint news conference with his Russian counterpart, Sergey Lavrov. "The world's two foremost nuclear owners cannot have this kind of relationship."

Lavrov described the talks between the secretary and Putin as "substantial" and "very frank."

In their remarks to reporters, both sought to emphasize opportunities for improving relations. Lavrov said a "deconfliction" agreement would be restored so both sides in Syria could keep the other apprised of their air operations and avoid inadvertent incidents.

Russia suspended the agreement following the U.S. attack on a Syrian airfield last week in response to an alleged chemical weapons attack by Syria on areas controlled by forces opposed to Syrian President Bashar Assad, a Russian ally.

EDITOR'S NOTE: As we know from Daniel 7, the yet future One World Political System consists of The Lion (The Christian Nations headed by the U.S.), The Bear (The Communistic/Non-Christian Nations headed by Russia), The Leopard (The Infrastructure of the "New World Order" i.e. The Kenites and their Four Hidden Dynasties) and Daniel's Fourth Beast (Satan and his angels). This Political Beast emerges at the Woe of the Fifth Trumpet but until then we'll continue to hear of "Wars And Rumors Of Wars" which is how the Kenites formulate the skeletal structure of the First Beast written of in Revelation 13.

1983 CIA DOCUMENT REVEALS PLAN TO DESTROY SYRIA, FORESHADOWS CURRENT CRISIS

By Tyler Durden, ZEROHEDGE.com, 4-10-17

BRINGING REAL MUSCLE TO BEAR AGAINST SYRIA

Summary:

Syria at present has a hammerlock on US interests both in Lebanon and in the Gulf ... through closure of Iraq's pipeline thereby threatening Iraqi internationalization of the war. The US should consider sharply escalating the pressures against Assad through covertly orchestrated simultaneous military threats against Syria from three border states hostile to Syria: Iraq, Israel and Turkey. The objective is to increasingly pressure the Assad regime under the military (and) operations against Syria with the aim of opening the pipeline. Although opening war is a second front against Syria which could lead to Iraq, Syria would also face a new front and since it is already hostile toward the West, the pipeline and its maintenance would have a hostile and volatile population inside Syria.

Israel would also/most/likely/also/continue along Syria's Lebanon front without actually going to war. Turkey, supported by Syrian support to Israeli terrorism, is Iraqi Kurds on Syria's Kurdish border areas and to Turkish territory operating out of northern Syria, has often conducted successful military operations against Syria's Lebanon and Jordanian borders. Finally, the US would have sympathy for Iraq.

Faced with these full-frontal fronts, Assad would probably be forced to abandon his policy of closure of the pipeline. Such a decision would relieve the economic pressures on Iraq, and perhaps force Iraq to reevaluate bringing the war to an end. It would be a clear sign to Syria's strategic that would affect the position of forces in Lebanon.

Prophetically foreshadowing the current crisis (and apparent action plan), leaked CIA documents from the reign of Bashar al-Assad's father in the 1980s show a Washington Deep State plan coalescing to “bring real muscle to bear against Syria,” toppling its leader (in favor of one amenable to US demands), severing ties with Russia (its primary arms dealer), and paving the way for an oil and gas pipeline of Washington’s choosing.

As ActivistPost.com's Brandon Turbeville detailed (just a day before Trump unleashed his Tomahawks), as the Syrian crisis enters its sixth year, the Donald Trump administration is looking more and more like the Obama administration every day. With the Trump regime refusing to open useful dialogue with Russia regarding Syria, its obvious anti-Iran and pro-Israel positioning, and support for a very questionable “safe zone” plan for Syria, the odds of a rational U.S. policy in regards to Syria has lower and lower odds of existence as time progresses.

Yet, despite the fact that the Trump administration is apparently poised to continue the Obama regime’s proxy war of aggression against the people of Syria, an example of seamless transition, **it should also be remembered that the plan to destroy Syria did not begin with Obama but with the Bush administration.**

Even now, as the world awaits the continuation of the Syrian war through a Democratic and Republican administration, the genesis of that war goes back to the Republican Bush administration, demonstrating that there is indeed an overarching agenda and an overarching infrastructure of an oligarchical deep state intent on moving forward regardless of which party is seemingly in power.

Yet, while even the connections between the plans to destroy Syria and the Bush administration are generally unknown, what is even less well-known is the fact that there existed a plan to destroy Syria as far back as 1983.

Documents contained in the U.S. National Archives and drawn up by the CIA reveal a plan to destroy the Syrian government going back decades.

One such document entitled, “Bringing Real Muscle To Bear In Syria,” written by CIA officer Graham Fuller, is particularly illuminating.

In this document, Fuller wrote,

Syria at present has a hammerlock on US interests both in Lebanon and in the Gulf— through closure of Iraq’s pipeline thereby threatening Iraqi internationalization of the [Iran-Iraq] war. The US should consider sharply escalating the pressures against Assad [Sr.] through covertly orchestrating simultaneous military threats against Syria from three border states hostile to Syria: Iraq, Israel and Turkey.

Even as far back as 1983, Syrian President Bashar al-Assad’s father, Hafez Assad, was viewed as a gadfly to the plans of Western imperialists seeking to weaken both the Iraqis and the Iranians and extend hegemony over the Middle East and Persia. The document shows that Assad and hence Syria represented a resistance to Western imperialism, a threat to Israel, and that Assad himself was well aware of the game the United States, Israel, and other members of the Western imperialist coalition were trying to play against him.
