## AUTOPSY OF THE AMERICAN DREAM: ALL ROADS LEAD TO THE NEW WORLD ORDER

“Hey, I’m a nationalist and a globalist. I’m both.  
And I’m the only one who makes the decision, believe me.”  
Donald Trump, April 28<sup>th</sup>, 2017

Contrary to popular belief, there is no One World Political System yet;  
only a vague skeleton Zbigniew Brzezinski called in his 1997 book  
*The Grand Chessboard:*

“the existing and increasingly antiquated UN structures.”

So, in the same way that The League of Nations provided the skeletal structure for the United Nations, the UN will provide the skeletal structure for the actual New World Order. First, the UN has to be proven a failure and Trump pulling the United States out of the Paris Climate Agreement is a clear step in that direction as well as Netanyahu calling for the dismantling of the United Nations Palestinian Refugee Agency.

A bill was introduced into Congress in January called H.R. 193:  
The American Sovereignty Restoration Act of 2017 which calls for  
(1) the President to terminate U.S. membership in the United Nations (U.N.), including any organ, specialized agency, commission, or other formally affiliated body;  
and (2) closure of the U.S. Mission to the United Nations.

If the United Nations is, in fact, the “great horn” of the “he-goat” written of in Daniel Chapter 8 (see *The Daniel 11 Hypothesis* on [BIBLICALRESEARCHLABS.com](http://BIBLICALRESEARCHLABS.com)) then what we are seeing unfold is followed by the emergence of  
The One World Political System written of in Revelation 13:

The REAL New World Order.

## McMASTER DOES BILDERBERG

(NOTE: Not only was National Security Advisor H.R. McMaster on the 2017 Bilderberg attendees list, but also ‘former’ Rothschild Inc. banker Wilbur Ross, the Secretary of Commerce.)

So much for draining the swamp.

During the election, it was obvious Trump had no intention of taking down the deep state. It was merely a phrase fed to him by Steve Bannon and the alt-righters. It was an election gimmick, a trick to get you to pull the lever.

Trump and McMaster are caretakers in the swamp. McMaster knows the score, I’m not sure Trump does. The system is owned by the elite, international banks and corporations. The interlocking fascist plutocracy is not going to allow a New York billionaire to have an alt-right revolution.

The last president to learn this lesson the hard way was John F. Kennedy.

Trump loves himself too much to let that happen. McMaster will have his say on Iran, Syria, and what the establishment calls ISIL.

How to live this betrayal down? It’s not a problem. Most Trumpites are not schooled in the finer details of the swamp, so Bilderberg might as well be German bratwurst to them. Millions of Americans are vested in Trump. Even if they know what the Bilderberg meeting is they can’t back down now. They continue to explain away his broken campaign promises.

McMaster’s sojourn to the table of the global elite will be reported in the alternative media and in Europe, but don’t expect much from The New York Times or The Washington Post.

**EDITOR’S NOTE:** As we know from Daniel 7, the yet future One World Political System consists of The Lion (The Christian Nations headed by the U.S.), The Bear (The Communistic/Non-Christian Nations headed by Russia), The Leopard (The Infrastructure of the “New World Order” i.e. The Kenites and their Four Hidden Dynasties) and Daniel’s Fourth Beast (Satan and his angels). This Political Beast emerges at the Woe of the Fifth Trumpet but until then we’ll continue to hear of “Wars And Rumors Of Wars” which is how the Kenites formulate the skeletal structure of the First Beast written of in Revelation 13.

# “REPEAL AND REPLACE” THE UN: **A FALSE SOLUTION**

By Alex Newman, [THENEWAMERICAN.com](http://THENEWAMERICAN.com)

5-24-17

(EXCERPT)

Even as the crimes and failures of the UN have become irrefutable, and its former defenders have taken to attacking it, globalists are pushing for its replacement, not its closing.

With the United Nations becoming increasingly controversial in the United States and beyond, the chorus to start dismantling it is growing louder and louder, and it is getting to be “mainstream.” Indeed, even many neoconservatives, perhaps hoping to keep what remains of their conservative credibility, appear to be joining the bandwagon. In recent years and especially in recent months, with the realization that more and more Americans are waking up to the evil of the UN, the calls for “replacing” the UN with some sort of “democratic” version of it are growing louder.

Writing in National Review Online after the British voted to secede from the European Union, for example, Josh Gelernter, also a regular contributor to the neocon journal Weekly Standard, headlined his article “Let’s Take a Cue From Brexit and Leave the U.N.” “There is no fixing the U.N.,” wrote Gelernter, urging readers to contact Congress and press the case. However, like other neocons, Gelernter went on to call for the creation of a “United Free Nations.”

Before that, Clifford May, the president of the neoconservative Foundation for Defense of Democracies and a signatory of the war mongering Project for a New American Century, made a similar argument in a late 2015 piece for the Washington Times. “The U.N. is not the headquarters of some notional ‘international community,’ and it’s certainly not the seed from which a global government should grow,” wrote May, who in the 1980s was reportedly listed as a member of the globalist Council on Foreign Relations. “The next administration might consider developing an alternative international organization, one that would include only nations sincerely committed to freedom, democracy, and human rights.”

(On May 26<sup>th</sup>, 2017, Alex Newman published another article on [THENEWAMERICAN.com](http://THENEWAMERICAN.com) entitled: 'Trump's Budget Seeks Big Cuts to UN Funding')

(EXCERPT) The dictator-dominated United Nations is in a panic, claiming that it will be “impossible” for it to continue its allegedly “essential work” under budget cuts outlined in President Donald Trump’s proposed budget for next year. While the proposed cuts to U.S. taxpayer funding of the UN are not quite the 50 percent rollbacks previously discussed by the administration, the decreased budget could nevertheless play a significant role in reining in the out-of-control UN. All funding for UN “global warming” schemes, for instance, would be slashed. However, globalists in Congress and the establishment media are already howling, ensuring a battle awaits ahead as the UN meddles more and more in U.S. affairs.

The Trump administration Fiscal Year 2018 budget, dubbed “A New Foundation for American Greatness,” includes relatively modest cuts of about 33 percent, or \$19 billion, to a wide range of global programs including unconstitutional foreign aid, U.S. diplomacy, and UN schemes. One goal, officials told reporters, was to force other governments to pay a larger share of the UN burden. There are three primary options to put the cuts into effect: Reduce the level of funding for international organizations’ budgets, reduce assessment rates on how much is demanded of U.S. taxpayers by the UN, and if necessary, unilaterally refuse to pay what the UN outfits demand.
