'Henry Kissinger is known to have been advising President Donald Trump on China and North Korea issues over the past year'

Joseph Bosco, TheDiplomat.com 1-29-18

"So President Trump will have to find a definition of the American role that answers the concern of many parts of the world that America was giving up its indispensable role of leadership in some categories - and major contribution in others - and to define what and where America can lead and where it must contribute and in that process help in the creation of an international order."

Henry Kissinger, 1-20-17

"China would also have a stake in the political evolution of North Korea following denuclearization, whether it be a two-state solution or unification, and in restrictions on military deployment placed on North Korea.

Heretofore, the administration has urged China to press North Korea as a kind of subcontractor to achieve American objectives.

The better—probably only feasible—approach is to merge the two efforts and develop a common position jointly pursued with the other countries involved. "

Henry Kissinger, 8-11-17

"Mr. President, I didn't expect this opportunity. It's always a great honor to be in this office, and I'm here at a moment when the opportunity to build a constructive, peaceful world order is very great.

And the President is leaving on a trip to Asia, which I think will make a big contribution to progress and peace and prosperity."Henry Kissinger, 10-10-17

EDITOR'S NOTE: There will be no "New World Order" until "The Great Horn of The He-Goat" is "broken" as we know from Daniel 8:8 (Watch the video 'Attack On Syria Would Be Attack On Entire U.N. System' on BiblicalResearchLabs.com for details). It is only when Satan and his angels (Daniel's Fourth Beast) are cast to earth that The Global Political System (The "New World Order") will emerge at The Woe of The Fifth Trumpet.

After this "New World Order" receives a 'Deadly Wound'

Satan will appear as Antichrist at The Woe of The Sixth Trumpet.

The True Christ will not return until The Woe of The Seventh Trumpet.

APRIL 2017 KISSINGER IS THE DARK SIDE OF TRUMP IN SYRIA

By Nafeez Ahed, MiddleEastEye.net

(EXCERPT) The US government's goals for the Syria strike can be deduced from the background role of one the most powerful diplomats in American history: Henry Kissinger.

The former secretary of state, once accused by the late Christopher Hitchens of complicity in US "war crimes" in Latin America and south-east Asia, has been a key advisor to Trump in negotiating US relations with Russia and China.

Kissinger was previously a secret national security consultant to President George W Bush, and under Obama was directly involved in the US National Security Council's chain-of-command. He also frequently advised Hillary Clinton during her term as secretary of state.

A hint at what is really at stake comes from talks that have gone on between the Netanyahu and Trump administration during the last few weeks before the strikes. For Israel, the real "red line" in Syria is not about chemical weapons – it's about Iran and Hezbollah's potential encroachment, through Assad's regime, on the Syrian-Israel border in the Golan Heights, or the Syrian-Jordanian border.

RUSSIA, IRAN, TURKEY WARN AGAINST ATTEMPTS TO DIVIDE SYRIA

MOSCOW, April 28. /TASS/. (EXCERPT) Moscow, Tehran and Ankara believe attempts to split Syria on ethnic and religious grounds to be unacceptable, Russian Foreign Minister Sergey Lavrov said on Saturday following a meeting with his Iranian and Turkish counterparts - Mohammad Javad Zarif and Mevlut Cavusoglu.

"We agreed that attempts to split Syria on ethnic and religious grounds were totally unacceptable," Lavrov said. "We have stated that we will counter attempts to undermine our joint efforts and pointed out that the Astana process is stable," he said. "We will continue solving important tasks related to de-escalation, easing tensions and reducing the conflict potential. Ceasefire violations continue to happen but we have a mechanism to monitor them and we will seek to overcome this situation, particularly by strengthening trust among the parties 'on the ground'," Lavrov added.

He pointed out that Saturday's meeting between the foreign ministers of Russia, Iran and Turkey "comes when developments in Syria are not always positive." "We have already said that the illegal attack on Syria on April 14 that the United States, Great Britain and France carried out before experts from the Organization for the Prohibition of Chemical Weapons had even started their work, caused a setback in efforts to advance the political process"

NORTH KOREA: CHINESE FOREIGN MINISTER TO VISIT PYONGYANG AFTER HISTORIC TALKS

BBC.com, 4-30-18

(EXCERPT) The trip comes amid a flurry of diplomatic activity following the landmark day on the peninsula. China is North Korea's only remaining economic ally, but this will be its highest level visit there in years. North Korean leader Kim Jong-un is expected to meet US President Donald Trump in the coming weeks. South Korea has already spoken to the leaders of US and Japan. According to Beijing, Mr Wang's visit on Wednesday and Thursday is being made at the invitation of the government in Pyongyang.

In March, Mr Kim made a surprise visit to Beijing to see President Xi Jinping, his first international trip since taking office, underlining the importance to Pyongyang of its relationship with China.

"Some Russians may believe America is trying to play China against Russia, but that is more an ego-gratifying compliment than a realistic judgement," Brzezinski said. "The fact of the matter is that China is considerably more important than Russia right now, but **if America and China cooperate, Russia has absolutely no choice but to join.** That would be in America's interest, firstly, but it would also be beneficial to Russia in the long run."
