GLOBAL TRENDS 2025
TOWARDS A TRANSFORMED WORLD

The international system-as constructed following the Second World War-will be almost unrecognizable by 2025 owing to the rise of emerging powers, a globalizing economy, an historic transfer of relative wealth and economic power from West to East, and the growing influence of nonstate actors. By 2025 the international system will be a global MULTIPOLAR one with gaps in international power continuing to narrow between developed and developing countries.

The U.S. strategy seeks to keep other countries permanently subordinate and backward, while many other countries, including China and Russia, aspire to a multipolar, equitable and just world order with peaceful development, which is undoubtedly opposed to the interests of the U.S. power establishment and therefore legitimate and promising.

From 'Clash of Two Visions' by Su Jingxiang, 4-18-21

'The United States, under its prevailing corporate capitalist system, cannot compete with the emerging multipolar order. By way of trying to reverse the historic decline, the U.S. is compelled to resort to increasing militarism against what it perceives as its nemesis – Russia and China – the two main proponents of a multipolar vision.'

-The Strategic Culture Foundation, 4-10-21

The Russian Federation (a.k.a. Edom) is the current 'king of the north' written of in Daniel 11:13-15 and the United States is the current 'king of the south'.

Controlling both from within is the shadow government of the Kenites symbolized by the he goat of Daniel 8 which is split into two warring factions:

“Nation shall rise against nation” means the goat fig nation shall rise against the goat fig nation which is why we now see Edom rising against the left/right paradigm which is symbolized by Ammon and Moab.

This is how the great horn of the he goat (the United Nations) will be 'broken' after which the **new** world order will emerge once Satan and his angels are cast to earth at the beginning of the five month long hour of temptation at the woe of the fifth trumpet.

Only then does the one world political system written of in Revelation 13 (the **new** world order) come into being which then receives a 'deadly wound' after which Satan appears as the false christ and the new world order becomes a one world religious system at the woe of the sixth trumpet.

KISSINGER WARNS WASHINGTON: ACCEPT NEW GLOBAL SYSTEM OR FACE A PRE-WORLD WAR ONE GEOPOLITICAL SITUATION

(Zero Hedge, 4-9-21)

(EXCERPT)

With the White House continually provoking tensions against Russia and China, the doyen of American foreign policy, *Henry Kissinger*, dramatically warned Washington last week to either agree to a new international system or continue pushing tensions that are leading to a situation similar to the eve of World War One.

It is unlikely that Washington is ready to unilaterally end its hard and soft power aggression as it falsely believes it can maintain a unipolar order.

It is always difficult for Great Powers to accept that the world has changed, especially when it is to their detriment.

The behavior of the Biden administration, which deliberately uses threatening and inappropriate rhetoric, demonstrates that it will not rationally accept a multipolar world system, especially since Russophobia and Sinophobia are on the rise.

Washington's misguided policy of aggression to maintain a unipolar world order worked in the favor of China and Russia, especially in accelerating their cooperation. The West can no longer suppress China's economic power or Russia's military power. Military strategists in the West are aware that the Russo-Sino cooperation cannot be compensated by anything.

In the 2016 epilogue to his book *The Grand Chessboard*, Zbigniew Brzezinski (co-founder of the Trilateral Commission) wrote in the last paragraph that the world needs an America that **'seeks to develop a more multipolar world order.'**

US IGNORES BRZEZINSKI'S WARNING, FACES DILEMMA

By Zhang Tengjun, GlobalTimes.cn 4-6-21

(EXCERPT)

The late renowned US geopolitical thinker Zbigniew Brzezinski made an insightful and exclusive analysis of geopolitical patterns in his famous book *The Grand Chessboard: American Primacy and Its Geostrategic Imperatives*.

Many of his judgments still have vitality today. Brzezinski pointed out in his book that "Potentially, the most dangerous scenario would be a grand coalition of China, Russia, and perhaps Iran, an 'antihegemonic' coalition united not by ideology but by complementary grievances." His warnings against US diplomacy have once again garnered much attention in recent days.

Whereas US relations with China, Russia and Iran have, to varying degrees, fallen into tensions, the latter three countries have made new progresses in developing relations among them. This pattern has made some media outlets and analysts believe that Brzezinski's prediction is now becoming a reality.

Brzezinski wrote, Eurasia is the "chessboard on which the struggle for global primacy continues to be played," where there are many "geostrategic players" and "geopolitical pivots." He added, "How the United States both manipulates and accommodates the principal geostrategic players on the Eurasian chessboard and how it manages Eurasia's key geopolitical pivots will be critical to the longevity and stability of America's global primacy." In the view of Brzezinski, China and Russia are classified into geostrategic players, while Iran is one of the geopolitical pivots. This can illustrate the importance of the three countries.

In the 1990s, the US was immersed in the dream of pursuing "unipolar hegemony." Against this backdrop, Brzezinski put forward such prudent judgment and advice to the US policymakers. This shows his capability. Unfortunately, since he published his analysis more than two decades ago, US diplomacy has been walking along the track of self-centeredness — especially as "America First."

THE US EXPANDING THE PLAYING FIELD: A TWO-FRONT NEW 'COLD WAR' KICKS OFF

By Mehmet A. Kanci 3-31-21

(EXCERPT)

Former US National Security Advisor Zbigniew Brzezinski, who left his mark with the decisions taken during the harshest times of the Cold War, immortalized the Cold War struggle between his country and the Soviet Union (USSR) by naming it the "Grand Chessboard", which was to become also the title of his iconic book. If Brzezinski were alive today, he would probably characterize the process that started with Joe Biden's election as "the US' enlargement of the chessboard".

The rapidly escalating tension between the US-UK and Russia-China fronts is leading to a confrontation, in which more countries will be forced to choose sides in the near future. Unlike the two great world wars, this time the problem will not be limited to sharing a trench with the chosen alliance. The choice of alliances will also affect the capabilities of countries in many complex areas such as defense, economy, space studies, energy, cyber warfare, 5G technologies, and vaccine wars. The US diplomatic language does not only force countries like Turkey, Germany and India, which have been cooperating with Russia in defense or energy, to pick a side but also aims to completely subjugate them. Who knows; maybe this polarization and the oppressive language will bring about the birth of a new "Non-Aligned Movement" as in 1961.

EDITOR'S NOTE:

The events written of in Revelation 13 are **entirely yet future** and do not begin until the woe of the 5th trumpet when Satan and his angels (Daniel's fourth beast) are cast to earth which is when the lion, the bear, the leopard and Daniel's fourth beast all rise up together at the same time in a one world political system (the new world order) which then receives a deadly wound after which Satan appears as the antichrist (which means 'instead-of-Christ') and the one world political system at that time becomes a one world religious system at the woe of the 6th trumpet.
